

# Consum de gasos

Segueix aquestes instruccions per gestionar les comandes de gasos comprimits i per omplir la taula resum d'aquesta pàgina.

- Afegeix les noves dades al capdamunt de la taula, de forma que estiguin en ordre cronològic invers i es vegin immediatament sense haver de baixar fins el final de la taula (els anys tenen moltes setmanes!).
- El format de les dates és YYYY-MM-DD, d'acord amb la recomanació del [World Wide Web Consortium \(W3C\)](#).
- Actualment tenim contractat el [lloguer de 8 botelles de gasos comprimits](#) pels següents usos,
  - 1x He-BIP per la crioplatforma del 500
  - 1x N2-Premier per la crioplatforma del 500
  - 2x Ox-Premier pel Biospec
  - 1x He-Premier HPLC-Masses del 500
  - 1x He-Premier per les recàrregues dels imants
  - 2x He-BIP per l'hiperpolaritzador HyperSense
- Només de forma excepcional podem tenir més botelles de les contractades, ja que la retenció perllongada de botelles addicionals pot generar un càrrec per retenció molt superior al cost de lloguer per contracte. Si en algun moment calen botelles extres de forma habitual, caldrà plantejar-se la conveniència de contractar el seu lloguer.

## 2017
